

Name:
Date:
Class:

Source: If the World Were a Village by David J. Smith, illustrated by Shelagh Armstrong.

Instructions: With your group, fill in the basic statistics outlined below:

1. Food/Nutrition	2. Clean Air	3. Clean Water	4. Sanitation Facilities	5. Energy/Power (Electricity)
People who are hungry: People who are severely malnourished: People who have enough to eat:	People who breathe clean air: People who breathe polluted air:	People who have access to safe water: People who do not have access to safe water:	People who have access to adequate sanitation (ie. toilets, showers, sewage disposal) People who do not have access to adequate sanitation:	People who have access to electricity: People who do not have access to electricity:

Next, use your statistics to create a bar graph or pie chart to illustrate the data. Print a copy of your chart and attach it to this assignment.
